CHILD SUPPORT IN SOUTH CAROLINA

 dss.sc.gov

 1-800-768-5858
(Child Support Call Center)

The Child Support Services Division at DSS encourages responsible parenting, family self-sufficiency, and child well-being by providing assistance in locating parents, establishing paternity, establishing, modifying, and enforcing support obligations, and obtaining child support for children. Our goal is to create a system where children can count on their parents for the financial and emotional support, they need to be healthy and successful.

It is free to apply for Child Support Services. If your child resides with you and you would like to apply, the Child Support Customer Service Portal provides a secure way to apply online. It is important to know that you do not have to have formal, legal custody of your child to apply. The child does have to live with you for you to be considered a CUSTODIAL PARENT

BABYNET

 scdhhs.gov

Young children learn and develop differently. One baby may walk earlier than another, while another baby might talk first. Often, these differences will even out. But some children will need extra help. Baby Net will evaluate the child at no cost to determine if they may be eligible for services.

BabyNet is South Carolina's interagency early intervention system for infants and toddlers under three years of age with developmental delays, or who have conditions associated with developmental delays.

BabyNet matches the special needs of infants and toddlers who have developmental delays with the professional resources available within the community. Services are provided in everyday routines, activities, and places relevant to the life of the family. Baby Net is funded and regulated through the Individuals with Disabilities Education Act and managed through the South Carolina Department of Health and Human Services.

Anyone (a parent, doctor, caregiver, teacher, or friend) can make a referral by the number listed below. Look for signs that an infant or toddler might need extra help. If you suspect a child may have a problem, the earlier you get help, the better!

WHAT IF THE CHILD IS MORE THAN THREE YEARS OLD? If the child is between the ages of 3 and 21, please contact the local school district in which the child lives.

Anyone can make a referral by calling our Central Referral Team at 1-866-512-8881.

ADOPTION

 dss.sc.gov

 (803) 898-7318

One of the options or choices that is available to you and the baby's father is to place your child up for adoption. Adoption is the legal process by which permanent custody of a child is transferred from birth parents to adoptive parents.

The Division of Adoption Services at DSS or other licensed adoption agencies can help you. For more information, call the DSS state office at (803) 898-7318 or check the services listed for your county of residence in this directory. At licensed adoption agencies, you will receive helpful, supportive services. You will be counseled about what is best for you, your baby and your family. You may have a part in the adoptive parent/family selection process. The final decision about adoption is yours to make, and the information you share with an agency is confidential.
