

RADIOLOGICAL HEALTH – Proposed Regulation

R.61-63, Radioactive Materials (Title A)

State Register Document TBD

Summary:

The federal Atomic Energy Act of 1954 enables the United States Nuclear Regulatory Commission (“Commission”) to enter into agreements with state governors allowing for state regulation of byproduct, source, and special nuclear materials. 42 U.S.C. Section 2121. The Commission enters into such agreements if it finds that the state regulatory program is in compliance with applicable federal regulations. Id. In order to renew South Carolina’s ongoing agreement with the Commission, DHEC proposes amending Regulation 61-63 to ensure state standards are in compliance with the Commission’s regulatory updates. Specifically, DHEC’s proposed amendments will revise Parts II, V, VII, and XII, for consistency with federal regulations. The Department may also make revisions for grammatical errors, typographical errors, and other such changes. Legislative review is not required.
