CON NOTES

June 2017

Greetings, Members of the Regulated Community!

Last month, we let you know about two issues that dealt with facility upgrades and Joint Annual Reports. If you missed that installment of CON Notes, we encourage you to take a look or ask us for a copy. In this installment of CON Notes, Program staff wish to draw your attention to two important items; exemption requests for reductions and closures and the new *South Carolina Health Plan*.

Exemption Requests for Reductions and Closures

If your facility is contemplating a permanent reduction in beds or services or an outright closure of a regulated health care facility, did you know an Exemption determination under Reg. 61-15 is required? This is often overlooked during a capacity reduction or closure situation, but current law requires the CON Program to officially issue an Exemption to you before proceeding. Many may wonder why this is necessary, but we assure you this is a very important step in both our and your process. When the CON Program inventories health care facilities, beds, and services for the *South Carolina Health Plan*, having the most up-to-date information is a critical necessity. Without seeking an Exemption for reduction or closure, it is unlikely the program would have an accurate inventory to publish for statewide consumption. The Exemption is not required so that the Department can determine if a closure is warranted, but simply to allow the program to maintain an accurate inventory of those facilities, beds, and services which are actually available in a given service area. Of course, as a requirement under current regulation, failing to seek such an Exemption may be subject to enforcement action. We hope you will recall this requirement when, or if, your facility sees a genuine need to reduce capacity or close a facility.

New South Carolina Health Plan

Did you know that, effective June 9, 2017, a new *South Carolina Health Plan* has been enacted? The Department is pleased to provide this new document to members of the regulated community and general public, and it is available both electronically ([HERE](#)) and in print should you wish to order a copy. The newly enacted *Plan* has several key changes to services, service areas, need and availability, and format. If you have not already done so, we encourage you to review the document thoroughly before submitting any new Certificate of Need Applications for beds, services, or equipment regulated by the *Plan*. Of course, should you have any questions at all, we are always available by email at coninfo@dhec.sc.gov or by calling 803-545-4200.
