

Confirmed Travel-Related Zika Cases in South Carolina*

Total cases = 4 (counts are cumulative since 1/1/17)

Footnote:

- * Data may not reflect the risk of Zika infection to residents in a county.
- * Counties with more travelers overall are more likely to have travelers with confirmed Zika infection.
- * Zika virus has not been detected in South Carolina mosquitoes as of the date this map was published.

Note: Map reflects total number of confirmed Zika cases from 1/1/17 to 3/20/17.
