### **Nationally Certified in Radon Mitigation**

The following companies offer radon mitigation services. SC DHEC does not recommend or endorse any company, its services or products. DHEC takes no responsibility for the accuracy or completeness of this list, but it has been updated as accurately as possible as of May 3, 2018.

Below are the two radon mitigation certification programs. Please refer to their website for the most up to date information and for certified professionals in nearby states that service South Carolina. Please note the individual is certified, not the company. Some professionals have gone through additional coursework and exams for advanced certification. If an individual has an advanced certification, it is noted below.
