

Recycling: The State & Counties at a Glance

The S.C. Solid Waste Policy and Management Act of 1991 – S.C. Code of Laws § 44-96-80 – requires counties or regions to annually report municipal solid waste (MSW) recycling data by commodity and amount to the S.C. Department of Health and Environmental Control. The commodities reported are: glass; metal; paper; plastic; organics; banned items; miscellaneous items; and commingled recyclables.

Recycling data also was collected from other sources including waste tire processors, electronics recycling vendors, used motor oil collectors, state agencies and colleges/universities as well as businesses and industries. This data was attributed to counties based on population or source. Once collected, the data is placed into one of three categories based on the source of the material: residential; commercial/institutional; and industrial (office/packaging).

Businesses and industries are not required to report their recycling activities. Unfortunately, the voluntary reporting

by these sources is inconsistent and effects the state's ability to accurately measure its recycling efforts.

South Carolina's MSW recycling rate decreased to 25.4 percent in fiscal year (FY) 2016 (July 1, 2015 to June 30, 2016) from 26.5 percent in FY15. In South Carolina, only MSW is used to measure the state's recycling efforts. (See the definition on page 2.) Overall, the amount of MSW recycled decreased less than 1 percent from 1,101,190 tons in FY15 to 1,094,569 tons in FY16. For total MSW and residential recycling tonnages since FY12, see Table 8.3.

The state's goal is to recycle at least 40 percent of its MSW and reduce MSW disposal to 3.25 pounds (or less) per person per day (p/p/d) by 2020. In FY16, only one county – Anderson – had a recycling rate greater than 40 percent. Twenty-five counties met the waste reduction goal of 3.25 p/p/d or less. (See Table 8.1.) For a county-by-county comparison of MSW recycling and disposal data, see Table 9.11 on page 96.

TABLE 8.1: S.C. Counties Meeting the Waste Reduction Goal of 3.25 P/P/D or Less in FY16

COUNTY	DISPOSAL RATE	COUNTY	DISPOSAL RATE
