

2012-2013

South Carolina Annual Report

On

Reportable Conditions

November 2014

**South Carolina Department of Health and
Environmental Control**

Introduction

The South Carolina Annual Report on Reportable Conditions, presented by the South Carolina Department of Health and Environmental Control (DHEC) Bureau of Disease Control, provides an overview and accompanying graphs displaying the summary data for diseases or conditions that are reportable by law in South Carolina (State Law #44-29-10, Regulation #61-20, State Laws #44-1-110 and 44-1-140).

The purpose of this report is to provide healthcare organizations and providers, government and regulatory agencies, and other concerned individuals and groups with important statistical information about potentially preventable diseases and conditions. Data in this report reflect diseases and conditions acquired by South Carolina residents only and include diseases and conditions contracted by South Carolina residents while traveling outside the state.

Annually, South Carolina is mandated to distribute an updated list of reportable diseases. DHEC receives disease reports from a variety of sources including, but are not limited to, practicing physicians, clinical laboratories, Infection Control Practitioners/Nurses (at hospitals within the state), DHEC's local health departments, and the DHEC Bureau of Laboratories. The manner in which the aforementioned sources report diseases is mainly electronic, though some sources are still reporting using DHEC's 1129 Disease Reporting Cards. Electronic reporting is through adaptation of the NEDSS Base System (NBS) provided by the U.S. Centers for Disease Control and Prevention (CDC). In South Carolina, DHEC's implementation in the NBS is called Carolina's Health Electric Surveillance System (CHESS). CHESS is a web-based tool used for data entry, secure storage, and improved access to data for analysis.

Cases reported each year in the annual report meet that year's CDC case definitions and occurred within that year's CDC Morbidity and Mortality Weekly Report (MMWR) year, a standard of reporting within the U.S. that allows accurate comparison of disease nationwide.

Recognition and appreciation should be given to the many healthcare professionals throughout the state of South Carolina who have contributed to the ongoing reporting of disease. These efforts are essential in protecting and improving the health of South Carolinians.

Questions or comments regarding the South Carolina Annual Report on Reportable Conditions may be directed to the DHEC Division of Acute Disease Epidemiology at (803) 898-0861.

South Carolina 2012 List of Reportable Conditions

Attention: Health Care Facilities, Physicians, and Laboratories

South Carolina Law §44-29-10 and Regulation §61-20 require reporting of conditions on this list to the local public health department.

South Carolina Law §44-53-1380 requires reporting by laboratories of all blood lead values in children under 6 years of age.

HIPAA: Federal HIPAA legislation allows disclosure of protected health information, without consent of the individual, to public health authorities for the purpose of preventing or controlling disease. (HIPAA 45 CFR §164.512)

IMMEDIATELY REPORTABLE BY PHONE

All suspected and confirmed cases, including preliminary clinical and laboratory results

- ☒ Any outbreak, unusual disease, or cluster of cases (1) (7)
- ☒ Any intentional biological, chemical, or radiological event
- ☒ Anthrax (7) (*Bacillus anthracis*)
- ☒ Botulism (*Clostridium botulinum* or Botulinum toxin)
- Influenza A, avian or other novel
- Measles (Rubeola)
- Meningococcal disease (7) (9)
- ☒ Plague (7) (*Yersinia pestis*)
- Poliomyelitis, Paralytic and Nonparalytic
- Rabies (human)
- ☒ Smallpox (Variola)
- ☒ Viral Hemorrhagic Fever (Ebola, Lassa, Marburg viruses)

URGENTLY REPORTABLE WITHIN 24 HOURS BY PHONE

All suspected and confirmed cases, including preliminary clinical and laboratory results

- Animal (mammal) bites (12)
- Arboviral Neuroinvasive & Non-Neuroinvasive Disease:
 - Eastern Equine Encephalitis, LaCrosse, St. Louis Encephalitis, West Nile Virus (7)
- ☒ Brucellosis (7)
- Dengue (*Flavivirus*) (7)
- Diphtheria (7)
- E. coli*, shiga toxin – producing (STEC), including *E. coli* O157:H7 (7)
- ☒ Glanders (*Burkholderia mallei*) (7)
- Haemophilus influenzae*, all types, invasive disease (4) (7)
- Hantavirus
- Hemolytic uremic syndrome (HUS) (10)
- Hepatitis A, acute (IgM Ab + only)
- Hepatitis B, acute (IgM core Ab + only)
- Influenza, Pediatric deaths (age <18) (11)
- ☒ Melioidosis (*Burkholderia pseudomallei*) (7)
- Mumps
- Pertussis
- ☒ Q fever (*Coxiella burnetii*)
- Rubella (includes congenital)
- Staphylococcus aureus*, vancomycin-resistant or intermediate (VRSA/VISA) (7)
- Syphilis, congenital, primary or secondary (lesion or rash)
- Trichinosis
- Tuberculosis (7)
- ☒ Tularemia (7)
- Typhoid fever (*Salmonella typhi*) (7)
- ☒ Typhus, epidemic (*Rickettsia prowazekii*)
- Vibrio, all types, including *Vibrio cholerae* O1 and O139 (7)
- Yellow Fever (*Flavivirus*)

REPORT WITHIN 7 DAYS

- AIDS (2)
- Campylobacteriosis
- Chancroid (*Haemophilus ducreyi*)
- Chlamydia trachomatis*, genital site
- Creutzfeldt-Jakob Disease (Age < 55 years only)
- Cryptosporidiosis
- Cyclosporiasis
- Enterobacteriaceae*, carbapenem-resistant (CRE) (*E. coli* and *Klebsiella pneumoniae*) (L) (3)
- Ehrlichiosis / Anaplasmosis (*Ehrlichia* species / *Anaplasma phagocytophilum*)
- Giardiasis
- Gonorrhea
- Hepatitis B, chronic
- Hepatitis B Surface Antigen + with each pregnancy
- Hepatitis C, D, E
- HIV-1 or HIV-2 infection (2)
- HIV CD4 co-receptor
- HIV CD4 T-lymphocyte count/percentage – all results (2)
- HIV HLA-B5701
- HIV subtype, genotype, and phenotype
- HIV viral load – all results (2)
- Influenza
 - Deaths (adults age 18 and older) (11)
 - Hospitalizations (aggregate report of totals) (11)
 - Lab-confirmed cases (culture, RT-PCR, DFA, IFA)
 - Positive rapid flu tests (aggregate report of totals)
- Lead poisoning (elevated blood lead levels, all ages) (5)
- Lead tests, all (age <6) (L)
- Legionellosis (All positive tests) (7)
- Leprosy (Hansen's Disease)
- Leptospirosis
- Listeriosis (7)
- Lyme disease (*Borrelia burgdorferi*)
- Lymphogranuloma venereum
- Malaria (*Plasmodium* species)
- Meningitis, aseptic (8)
- Pesticide poisoning
- ☒ Psittacosis (*Chlamydophila psittaci*)
- Rabies Post Exposure Prophylaxis (when recommended) (12)
- Rickettsiosis, Spotted Fever (e.g. RMSF)
- Salmonellosis (7)
- Shigellosis (7)
- Staphylococcus aureus*, Methicillin resistant, bloodstream infections (MRSA-BSI) (L)
- Streptococcus* group A, invasive disease (4)
- Streptococcus* group B, age < 90 days
- Streptococcus pneumoniae*, invasive, (3) (4)
- Syphilis, latent or tertiary, or positive serologic test
- Tetanus
- Toxic Shock (specify staphylococcal or streptococcal)
- Varicella (outbreaks, deaths, or hospitalizations) (6)
- Yersiniosis (*Yersinia*, not pestis)

☒ Potential agent of bioterrorism

(L) Only Labs required to report.

1. Outbreak: An excess number of cases or syndromes over the expected occurrence of disease within a geographic area, population group, or healthcare facility. Clinical specimens may be requested.
2. Report HIV or AIDS when serum, urine, or oral fluid specimen is positive by: (a) confirmatory test (e.g., Western Blot), or (b) HIV detection test (e.g., EIA or PCR nucleic acid test with viral load) or (c) clinical diagnosis of a case of HIV or AIDS. All reactive rapid HIV test results must be reported to DHEC. All HIV viral load and CD4 test results must be reported by labs regardless of results.
3. Reports should specify the site from which the isolate was obtained and the drug susceptibility profile.
4. Invasive disease = isolated from normally sterile site: blood, bone, CSF, joint, pericardial, peritoneal, or pleural fluid, protected bronchial sampling or from lung aspirate/biopsy, necrotizing fasciitis, and cellulitis only if isolate is from a tissue biopsy. Always specify site of isolate.
5. Report serum lead levels ≥ 10 $\mu\text{g/dL}$ for children under 18 years of age and ≥ 25 $\mu\text{g/dL}$ for persons 18 years or older.
6. An outbreak of Varicella is defined as 5 or more cases within 6 weeks in a common setting, such as school, childcare, or other institutional setting.
7. Labs are requested to submit these isolates, positive serologies, or specimens to the DHEC Bureau of Laboratories for confirmatory testing or genotyping.
8. Acute meningial symptoms, fever, CSF pleocytosis, sterile culture. Consult DHEC in outbreaks to submit specimens to lab for virus identification.
9. Report Gram-negative diplococci in blood or CSF.
10. HUS, with or without gastroenteritis: Triad of acute renal failure, thrombocytopenia, and microangiopathic hemolytic anemia.
11. Report lab-confirmed only. Laboratory confirmation includes culture, RT-PCR, DFA, IFA, or rapid test. For deaths, also includes autopsy results consistent with influenza.
12. Rabies PEP guidance: www.scdhec.gov/health/envhlth/rabiesrabies-pep.htm. Consultation is available from the DHEC Regional Office.

South Carolina 2012 List of Reportable Conditions

How to Report

Submit reports by **one** of the following methods:

1. Immediately Reportable Conditions

- M-F, 8:30-5 PM: Call the regional public health office. See list below.
- Nights, weekends, and holidays: Call the regional public health office night / weekend phone / pager number (see list below), or the statewide DHEC emergency contact number (1-888-847-0902).

2. Urgently Reportable Conditions:

- Call the regional public health office within 24 hours. See list below.

3. Conditions Reportable Within 7 Days:

- Submit an electronic morbidity report via DHEC's web-based reporting system. To learn more, call 1-800-917-2093, or
- Complete the DHEC 1129 Disease Reporting Card and mail in an envelope marked confidential to the regional public health office (see list below), or
- Call the regional public health office.

4. HIV, AIDS, and STDs (excluding Hepatitis):

To report these conditions: call 1-800-277-0873; or submit electronically via DHEC's electronic reporting system (call 1-800-917-2093 to learn more); or submit a DHEC 1129 Disease Reporting Card or appropriate CDC Case Report Form in a confidential envelope to:

Division of Surveillance & Technical Support, Mills/Jarrett Complex
Box 101106, Columbia, SC 29211

What to Report

- Patient's name
- Patient's complete address, phone, date of birth, race, sex, county, social security number
- Physician's name and phone number
- Name, institution, and phone number of person reporting
- Disease or condition
- Date of diagnosis
- Symptoms
- Date of onset of symptoms
- Date of report
- Lab results, specimen site, collection date
- If female, pregnancy status
- Status: In daycare or a food-handler

Regional Public Health Offices

Attention Health care Facilities, Physicians, and Laboratories: Send or call reports to the Epidemiology Office in the county where the patient resides. These numbers should be used for reporting suspected and confirmed cases only.

Region 1

(Anderson, Oconee)

220 McGee Road
Anderson, SC 29625
Phone: (864) 260-4358
Fax: (864) 260-5623
Nights / Weekends: 1-866-298-4442

(Abbeville, Edgefield, Greenwood,
Laurens, McCormick, Saluda)

1736 S. Main Street
Greenwood, SC 29646
Phone: 1-888-218-5475
Fax: (864) 942-3690
Nights / Weekends: 1-800-420-1915

Region 2

(Greenville, Pickens)

PO Box 2507
200 University Ridge
Greenville, SC 29602-2507
Phone: (864) 282-4139
Fax: (864) 282-4373
Nights / Weekends: (864) 809-3825

(Cherokee, Spartanburg, Union)

PO Box 4217
151 E. Wood Street
Spartanburg, SC 29305-4217
Phone: (864) 596-2227, x 210
Fax: (864) 596-3443
Nights / Weekends: (864) 809-3825

Region 3

(Fairfield, Lexington, Newberry, Richland)

2000 Hampton Street
Columbia, SC 29204
Phone: (803) 576-2749
Fax: (803) 576-2993
Nights / Weekends: 1-888-554-9915

Region 3 cont.

(Chester, Lancaster, York)

PO Box 817
1833 Pageland Highway
Lancaster, SC 29720
Phone: (803) 286-9948
Fax: (803) 286-5418
Nights / Weekends: 1-866-867-3886

Region 4

(Chesterfield, Darlington, Dillon,
Florence, Marlboro, Marion)

145 E. Cheves Street
Florence, SC 29506
Phone: (843) 661-4830
Fax: (843) 661-4859
Nights / Weekends: (843) 601-7051

(Clarendon, Kershaw, Lee, Sumter)

 - Salmonellosis (5)
 - Shigellosis (5)
- ! Smallpox (Variola)**
- * *Staphylococcus aureus*, vancomycin-resistant or intermediate (VRSA/VISA) (5)
 - Streptococcus* group A, invasive disease (3)
 - Streptococcus* group B, age < 90 days
 - Streptococcus pneumoniae*, invasive (2) (3)
- * St. Louis Encephalitis (5)
- * Syphilis: congenital, primary, or secondary (lesion or rash)
 - Syphilis: latent or tertiary, or positive serological test
 - Tetanus
 - Toxic Shock (specify staphylococcal or streptococcal)
- * Trichinellosis (*T. spiralis*)
- * Tuberculosis (5)
- * Tularemia (5)
- * Typhoid fever (*Salmonella typhi*) (5)
- * Typhus, epidemic (*Rickettsia prowazekii*)
 - Varicella
- * *Vibrio*, all types, including *Vibrio cholerae* O1 and O139 (5)
- ! Viral Hemorrhagic Fevers (Ebola, Lassa, Marburg viruses)**
- * West Nile Virus (5)
- * Yellow Fever (*Flavivirus*)
 - Yersiniosis (*Yersinia*, not *pestis*)

! Potential agent of bioterrorism **(L) Only Labs required to report.**

1. An outbreak is the occurrence of more cases of disease than normally expected within a specific place or group of people over a given period of time. Clinical specimens may be required.
2. Reports should specify the site from which the isolate was obtained and the drug susceptibility profile.
3. Invasive disease = isolated from normally sterile site: blood, bone, CSF, joint, pericardial, peritoneal, or pleural fluid, protected bronchial sampling or from lung aspirate/biopsy, necrotizing fasciitis, and cellulitis only if isolate is from a tissue biopsy. Always specify site of isolate.
4. Report Gram-negative diplococci in blood or CSF.
5. Labs are requested to submit these isolates, positive serologies, or specimens to the DHEC Bureau of Laboratories for confirmatory testing or genotyping.
6. Rabies PEP guidance: www.scdhec.gov/environment/envhlth/rabies/rabies-pep.htm. Consultation is available from the DHEC Regional Office.

South Carolina 2013 List of Reportable Conditions

How to Report

Submit reports by **one** of the following methods:

1. Conditions Immediately Reportable or Reportable Within 24 hours:

- M-F, 8:30-5 PM: Call the regional public health office. See list below.
- Nights, weekends, and holidays: Call the regional public health office night / weekend phone / pager number (see list below), or the statewide DHEC emergency contact number (1-888-847-0902).

2. Conditions Reportable Within 3 days:

- Submit an electronic morbidity report via DHEC's web-based reporting system. To learn more, call 1-800-917-2093, or
- Complete the DHEC 1129 Disease Reporting Card and mail in an envelope marked confidential to the Division of Acute Disease Epidemiology, or
- Call the regional public health office (see list below).

3. HIV, AIDS, and STDs (excluding Hepatitis): To report these conditions: call 1-800-277-0873; or submit electronically via DHEC's electronic reporting system (call 1-800-917-2093 to learn more); or submit a DHEC 1129 Disease Reporting Card or appropriate CDC Case Report Form in a confidential envelope to:

Division of Surveillance & Technical Support, Mills/Jarrett Complex
Box 101106, Columbia, SC 29211.

What to Report

- Patient's name
- Patient's complete address, phone, date of birth, race, sex, county, social security number
- Physician's name and phone number
- Name, institution, and phone number of person reporting
- Disease or condition
- Date of diagnosis
- Symptoms
- Date of onset of symptoms
- Date of report
- Lab results, specimen site, collection date
- If female, pregnancy status
- Status: In childcare or a food-handler

Regional Public Health Offices

Attention Health Care Facilities, Physicians, and Laboratories: Send or call reports to the Epidemiology Office in the county where the patient resides. These numbers should be used for reporting suspected and confirmed cases only.

For information on reportable conditions and updates to the
2013 List of Reportable Conditions, see
www.scdhec.gov/health/disease/reportables.htm

South Carolina Department of Health and Environmental Control

We promote and protect the health of the public and the environment.

www.scdhec.gov

Notes:

- Not all conditions were reportable in all years. For years in which the condition was not reportable, "NR" replaces the case and rate value.
- Due to patient confidentiality restrictions, county level case counts of less than four cases are replaced with an asterisk (*). An asterisk is also used to suppress all county-level numbers if the count from a single county may be inferred by the total for the state in that year.
- **Creutzfeldt-Jakob Disease** is only reportable in adults over the age of 55.
- **Group B Streptococcus, invasive** is only reportable in infants less than 90 days old.
- **Varicella** was only reportable in instances of outbreaks, hospitalizations, and deaths between 2009 and 2012. Along with recommendations for a second dose of varicella vaccine for children, this change accounts for the significant decrease in case numbers during that period.
