Retail Food Establishments: Certified Food Protection Manager
Regulation 61-25: Retail Food Establishments

Five Key Risk Factors repeatedly identified in foodborne illness outbreaks:

1. Improper Holding Temps
2. Inadequate Cooking
3. Contaminated Equipment
4. Food from Unsafe Sources
5. Poor Personal Hygiene

All 5 of these risk factors can be reduced by having a certified food protection manager.

Regulation 61-25
Citations 2-102.12 & 2-102.20

At least one employee with the authority to direct and control food preparation and service shall be a food protection manager who has been certified by an accredited program. Only Conference of Food Protection ANSI certified Food Protection Manager Courses meet the requirements of 2-102.20.

Public Health Reasons

Food protection managers have an important role in formulating policies, verifying food employees carry out these policies, and communicating with employees about the recommended practices to reduce the risk of foodborne illness.

Below are organizations with Certified Food Protection Manager (CFPM) programs accredited by the American National Standards Institute (ANSI)
