WANTED

FOR RECYCLING

COLORING BOOK

YOU CAN RUN BUT YOU CAN'T HIDE

MILK JUG GUY

ALIASES: #2, HDPE. **PROFILE:** When recycled, Milk Jug Guy and the #2 Bottle Family can be put to work making car parts, plastic lumber, dog houses, fencing, mail box posts, shopping carts and curbside recycling bins. They can be identified by their ♻️ tattoo.

NEWSPAPER GUY

ALIAS: The Paper. **PROFILE:** Recycling is a black and white issue with Newspaper Guy. He can be recycled into pencils, notebook paper, grocery bags and newspapers. His cronies include Office Paper Guy and Computer Paper Guy, who also are wanted for recycling.

BATTERY GUY

ALIAS: Juice. **PROFILE:** It's the LAW to recycle Battery Guy in South Carolina! It's easy, too. Just turn him in when you buy a new lead-acid battery for your car or truck.

PLASTIC BOTTLE GUY

ALIASES: #1, PETE. **PROFILE:** Plastic Bottle Guy can be recycled into T-shirts, backpacks, lunch and tote bags and carpet. Remember to recycle his accomplices, such as shampoo and water bottles as well as 12-, 16- and 20-ounce soft drink bottles. They all have a ♻️ tattoo.

TIRE GUY

ALIAS: Wheels. **PROFILE:** There are new ways for Tire Guy to hit the road. He can be made into new highways and secondary roads. He also can be made into exercise pads, walkways, garden soaker hoses and mouse pads. Tire Guy is easy to recycle, too. Turn him in when you buy a new one.

DOTTIE BOTTLE

ALIAS: Ms. Glass. **PROFILE:** Dottie Bottle is a master of disguise. She frequently changes her colors and may appear in green, clear and brown. All colors are 100 percent recyclable. Glass never wears out – it can be recycled forever into new glass bottles and jars.

ALUMINUM CAN GUY

ALIASES: Can Man, The Six-Pack Kid.

PROFILE: Aluminum Can Guy is one of the most wanted recyclables in the country. He is notorious for his quickness and “can-do” attitude. He can be recycled into a new aluminum can and be back on the store shelf within six weeks.

STEEL CAN GUY

ALIAS: The Steel City Kid. **PROFILE:** A native of Pittsburgh, he's a tough character. Steel cans, like soup, fruit and vegetable cans, can be recycled over and over again into new steel products. All new steel contains recycled steel. In fact, when you buy steel products, you're buying recycled.

COMPOST GUY

ALIAS: Leaf Brown. **PROFILE:** Compost Kid and his Scrap Food Gang are the most trouble when placed in a garbage can or bag. If placed in a compost bin at home, over time they make a rich soil amendment for gardens and flower beds.

MOTOR OIL GUY

ALIASES: Slick, 10-W-30. **PROFILE:** If carelessly dumped, Motor Oil Guy poses a serious threat to aquatic life, wildlife and water supplies. Recycle your used oil, oil filters and oil bottles at collection sites across South Carolina.

E2

ALIASES: The Kilowatt Kid, Sunny. **PROFILE:** E2 is always out to save a buck (and natural resources) by conserving energy. Turn off the lights, computer, TV and radio when leaving a room. Use energy-efficient bulbs. Use the sun's light, too – sit by a window to read.

MOTOR OIL GUY & TIRE GUY ARE CONSIDERED DANGEROUS IF DISPOSED IMPROPERLY.

All other recyclables are considered harmless unless they are litter. If located, please pick up and deposit in the nearest recycling bin. For more recycling information, please contact your local recycling coordinator or DHEC's Office of Solid Waste Reduction and Recycling at **1-800-768-7348**.

REWARD

The rewards being offered are your chances to save natural resources, energy and landfill space, to support your local recycling program, and to protect South Carolina's environment.
