Item 5: Public Hearing and Request for Final Approval – Proposed Amendment of Regulation 61-34.1, Pasteurized Milk and Milk Products, State Register Document No. 4497, Legislative Review is required (Attachment 5-1)

Mr. Rick Caldwell, Assistant Bureau Director, Bureau of Environmental Health Services, presented this item to the Board.

Regulation 61-34.1 governs the manufacturing of pasteurized milk and milk products in South Carolina and was derived from the U.S. Food and Drug Administration (FDA) Grade "A" Pasteurized Milk Ordinance, 2003 Revision. In the most recent FDA Grade "A" Interstate Milk Shippers (IMS) Program Triennial State Evaluation (FY 2011-2013) report on the South Carolina Dairy Program, the current version of R.61-34.1 was determined to be out of date and to not meet the current Grade "A" IMS Program minimum requirements.

FDA Memorandum of Information (M-I-03-2012 - Supplement 1) requires a state to adopt the Grade "A" Pasteurized Milk Ordinance (PMO) or have an equivalent regulation no more than six (6) years behind the current National Conference on Interstate Milk Shipments (NCIMS) and the PMO.

The amendment will bring R.61-34.1 into compliance with the most up to date procedures of the NCIMS, specifically Sections VI and VII of the Procedures Governing the Cooperative State - Public Health Service, Food and Drug Administration Program of the National Conference on Interstate Milk Shipments and the FDA Pasteurized Milk Ordinance (PMO), 2013 Revision.

In order for South Carolina milk producers and processors to continue the shipment of milk and milk products in interstate commerce and market their milk products as Grade “A,” it is essential to keep R.61-34.1 updated with respect to the current edition of the FDA Grade "A" PMO and its inclusive guidance documents.

A public hearing was conducted; however, no one in attendance spoke. (Attachment 5-2)

After discussion, Mr. Lutz moved, seconded by Dr. Kirol, to find for the need and reasonableness of the Proposed Amendment of Regulation 61-34.1, Pasteurized Milk and Milk Products, and approve it for submission to the Legislature for review. The Board voted and Motion carried.
