State Register Document No. 4553, Legislative Review is required (Attachment 4-1)

Ms. Gwen Thompson, Director, Bureau of Health Facilities Regulation, presented this item to the Board.

Hospices provide a continuum of medically supervised palliative and supportive care for terminally ill patients and their family including, but not limited to, inpatient services and outpatient services. Hospice facilities house licensed hospices that provide room, board, and appropriate hospice services on a twenty-four (24) hour basis to individuals requiring hospice care pursuant to the orders of a physician.

The proposed amendments incorporate provisions relating to accident and incident reporting, patient and medical record maintenance, infection control and tuberculosis screening, medication administration, patient care, treatment, and services, emergency procedures and disaster preparedness, design and construction, fire and life safety, and overall licensing requirements for hospice facilities and inpatient and outpatient services in accordance with governing statutes. The amendments incorporate current provider-wide exceptions and memoranda that are applicable to inpatient and outpatient services and hospice facilities.

A public hearing was conducted before the Board on March 12, 2015. Due to the comments received at the hearing, the Board granted an extension of time to allow additional material into the record for staff consideration. Specifically, the Board directed Department staff to reconsider Items One, Four, and Five of the material presented by the Carolinas Center for Hospice and End of Life Care.
Subsequent to the public hearing, Department staff met to consider Items One, Four, and Five of the material presented to the Board by Carolinas Center for Hospice and End of Life Care. Additionally, although not explicitly directed by the Board, Department staff felt it necessary to consider Item Two as well in light of the regulation’s deficiency in addressing this particular business model. As a result, Department staff has revised the proposed regulation taking into consideration the directives of the Board as presented by Carolinas Center for Hospice and End of Life Care.
