Re: Limited Source Area Assessment (AEM; November 22, 2016)  
Ingersoll Rand- Honea Path Plant  
Anderson County  
Consent Agreement 01-045-W  
BLWM File # 400238

Dear Mr. Goldstein:

The South Carolina Department of Health and Environmental Control (the Department) has reviewed and approved the Limited Source Area Assessment report submitted by AEM. The following comments were generated by this review.

1: The EPA Risk-based SSL (soil screening levels) for protection of groundwater or the MCL (maximum contaminant level)-based SSL should be used, if available to define the extent of the soil contamination.

2: The Department concurs that additional sampling and data collection in warranted prior to submittal of a Feasibility Study (FS). Please note, a FS should include all media impacted i.e. soil, groundwater, and surface water.

Please submit the proposed work plan for additional source area investigation to my attention on or before May 30, 2017. On all correspondence regarding this site, please reference BLWM File # 400238. If you have questions concerning this correspondence, or would like to submit additional information, contact Jan Trent, the project manager, at (803) 898-0723 or email me at trentjc@dhec.sc.gov.

Sincerely,

Jan Trent, Project Manager
