Re: Ingersoll Rand- Honea Path Plant  
Supplement Source Area Assessment Report for the Former  
TCE AST Tank Pad (AEM; October 5, 2017)  
Anderson County  
Consent Agreement 01-045-W  
BLWM File # 400238

Dear Mr. Goldstein:

The South Carolina Department of Health and Environmental Control (the Department) has reviewed and approves the Supplement Source Area Assessment Report for the Former TCE AST Tank Pad submitted by AEM.

However, prior to the submittal of a Feasibility Study (FS) to address source area soil contamination and groundwater, the Department recommends a meeting to discuss potential remedies, the focus and structure of an FS and the Voluntary Cleanup Program. As discussed with Leona Mills, AEM project manager, the Department further requests a site visit to tour the facility and site to better understand the scale of the area(s) of concern. As discussed, potential site visit dates and meeting dates are forthcoming.

On all correspondence regarding this site, please reference BLWM File # 400238. If you have questions concerning this correspondence, or would like to submit additional information, contact Jan Trent, the project manager, at (803) 898-0723 or email me at [trentjc@dhec.sc.gov](mailto:trentjc@dhec.sc.gov).

Sincerely,

Jan Trent, Project Manager  
State Voluntary Cleanup Program  
Site Assessment, Remediation & Revitalization Division  
Bureau of Land and Waste Management
