NOVEMBER 19, 2019 • COOPERATIVE CONFERENCE CENTER

ENVIRONMENTAL ASSISTANCE CONFERENCE • NOVEMBER 19, 2019

GENERAL SESSION – SALON A	
9 a.m.	<p>Opening Remarks Rebecca Sproles</p> <p>Welcome & Introduction Myra Reece Director of Environmental Affairs, DHEC</p> <p>Keynote Speaker Dr. Rick Toomey Director, DHEC</p>
9:30 a.m.	<p>What “D-HEC” to Expect When an Emergency Occurs: Emergency Response 101</p> <p>DHEC’s Bureau of Environmental Health Services (BEHS) presents a panel to discuss the importance of proper environmental planning for emergency situations and what an industrial facility should expect when state and local officials respond to an emergency.</p> <p>Speakers: Michele Horton (Bridgestone Americas, Inc. Aiken County PSR/LTR Plant), Denise Kwiatek (Pickens County Emergency Management), Paul Lee (BEHS), Charles Owens (BEHS)</p>
10:45 a.m.	<p>BREAK</p> <p>Exhibitor Open House</p>
11:15 a.m.	<p>Program Leadership Updates</p> <p>Brief updates from the Bureau of Air Quality (BAQ), Bureau of Land & Waste Management (BLWM), and the Bureau of Water (BOW) to include upcoming regulation changes for 2020 as well as a discussion on emerging contaminants.</p> <p>Speakers: Rhonda Thompson (BAQ), David Scaturo (BLWM), Mike Marcus (BOW)</p>
12:00 p.m.	<p>Lunch - Networking and Exhibits</p>

Concurrent Sessions 1:00 p.m.	SALON A
	<p>Asbestos 101</p> <p>This session will introduce you to the world of asbestos. Included will be what is asbestos, how do I know if it’s in my building, and what to do about it.</p> <p>Speaker: Jennifer Boryk (BAQ)</p>
	SALON B
	<p>eDMRs: What to Expect</p> <p>Beginning in December 2019, electronic NPDES data, including electronic discharge monitoring reports (eDMRs) will be submitted through our new e-Permitting system. This will session provide an overview of the electronic data submission requirements and a detailed look at the submission website.</p> <p>Speaker: Dale Stoudemire (BOW)</p>
	SALON C
	<p>Hazardous Waste Part 1 - Generator Improvement Rule</p> <p>This session will provide an overview of the major provisions adopted under the new Hazardous Waste Generator Improvements Rule, to include: generator categories, waste determinations, emergency planning, and container management.</p> <p>Speaker: Tom Richmond (BLWM)</p>

Concurrent Sessions 1:45 p.m.	SALON A
	<p>What’s Going on in the World of Air Permitting</p> <p>This session will cover topics including updates/revisions to our construction permit application forms, updates to guidance documents, and opportunities to improve applications to decrease the time to get a draft permit.</p> <p>Speaker: James Robinson, PE (BAQ)</p>
	SALON B
	<p>Stormwater Industrial Facilities & Activities by Sector Covered Under NPDES General Permit</p> <p>This session will provide an overview of the NPDES general permit and how it interacts with other NPDES permits, stormwater permits, and wastewater treatment operations.</p> <p>Speaker: Paul Quattlebaum (BOW)</p>
	SALON C
	<p>Hazardous Waste Part 2 - Generator Improvement Rule: Waste Assessments, Testing, & Recording Keeping</p> <p>This session will provide an overview of representative sampling, sample analysis plan and record keeping requirements for waste determinations.</p> <p>Speaker: Jeff Schrag (BLWM)</p>
2:30 p.m.	<p>BREAK</p> <p>Exhibitor Open House</p>
Concurrent Sessions 2:50 p.m.	SALON A
	<p>Public Participation as a Permitting Tool</p> <p>We all know that public participation is a regulatory requirement for some permits, but how can it be a useful and effective tool in the permitting process and beyond? Come join this session to learn about practical ways industries can engage with their community before, during, and after the permitting process to prevent costly delays and implement sustainable solutions.</p> <p>Speaker: Lawra Boyce (EA Admin)</p>
	SALON B
	<p>Wetlands and Coastal Zone Consistency Review Process</p> <p>This session will cover the general requirements for 401 water quality certification and the coastal zone consistency certification. It will also describe how staff members coordinate during the review process and how certifications are issued in compliance with specific regulations regarding the coordination.</p> <p>Speakers: Chuck Hightower (BOW), Chris Stout (Office of Ocean & Coastal Resource Management)</p>
	SALON C
	<p>Hazardous Waste Part 3 - Compliance Issues</p> <p>This session will address common pitfalls associated with the Hazardous Waste Generator Rule, including: episodic generation, waste consolidation, and closure.</p> <p>Speaker: Tom Richmond (BLWM)</p>
