Re: Response to DHEC Comments dated March 29, 2019 (AEM, May 2, 2019)  
Ingersoll Rand Honea Path Plant  
Anderson County  
Consent Agreement: 01-045-W  
BLWM ID# 400238

Dear Mr. Goldstein:

The South Carolina Department of Health and Environmental Control (the Department) has reviewed the reference correspondence and approves the response to comments as discussed below.

No Action should be included in the Source Area Soil Remedial Options and in the Source Area Groundwater Remedial Option. No action is the baseline that all the proposed alternatives are compared. Continued containment or pump and treat is a remedial alternative and should be included and evaluated against the CERCLA criteria.

Please send the revised Section 4 of the report and Tables to my attention on or July 31, 2019. If you have any questions, please contact me at (803) 898-0723 or email me at trentjc@dhec.sc.gov.

Sincerely,

Jan Trent, Project Manager  
State Voluntary Cleanup Program  
Site Assessment, Remediation & Revitalization Division  
Bureau of Land and Waste Management
