

NOTICES

INTENT TO SOLE SOURCE

The South Carolina Department of Health & Environmental Control (DHEC) is seeking qualified vendors to provide as a Software as a Service (SaaS) web- and mobile-based platform, customizable to DHEC for mental health and well-being improvement, interactive assessments, local resources, and mental health and well-being topic write-ups for employee access 24/7/365. The platform shall allow employees to gain knowledge and skills to work independently on their mental health in a convenient, safe and non-stigmatizing way, with after-hours access to information and services for early intervention and possible crisis prevention. The service is to include a customer success manager and an account manager during normal business hours for training, quarterly reports and ongoing support of the platform. The total estimated dollar amount of the 3-year contract purchase is \$20,000, which includes a one-time set up fee.

The anticipated cost of the service does not meet the State's protest criteria. However, qualified vendors should contact Rebecca Nichols at NICHOLRJ@dhec.sc.gov by Midnight, April 29, 2021 for additional information.
