

SC DHEC regulations require all Water Systems to initiate and maintain a viable Cross-Connection Control (CCC) Program. We are finding that many organizations do not have qualified/trained staff to properly create or administrate this mandatory program. This course is designed for Water System personnel who may be a part of administrating this program. Backflow basics will be explained to include Methods, Devices & Assemblies. State & federal regulations will be presented. We will review the anatomy of a Cross-Connection Control Program. DHEC will demonstrate testing procedures for the PVB, DCVA, and RP assemblies.

**6.0 hours of CEU credit will be awarded for this program.**

In order to receive certification, DHEC will require that students attend the entire day of the workshop and pass a written exam.

**Enrollment is limited to 15 students.**

To register, complete, detach, and mail/email the registration form (along with your check or money order payable to (SCDHEC) to the address shown below:

**SCDHEC–Bureau of Water  
Backflow Prevention  
2600 Bull Street  
Columbia, SC 29201  
Email: [foxsc@dhec.sc.gov](mailto:foxsc@dhec.sc.gov)**

*\*DHEC will not bill you or your company. Do not send a purchase order.*

If training is canceled, your registration fee will be refunded. If you are unable to attend, you may send a substitute to avoid losing your registration fee. Please note there are no refunds and applying the fee to a future class is not possible.
