Re: Conditional Approval of Groundwater Assessment Plan, dated July 28, 2018  
4210 Azalea Drive  
SCDHEC Site ID 50975  
Charleston County

Dear Mr. Burriss:

The South Carolina Department of Health and Environmental Control (the Department) has received and reviewed the above referenced document. The Groundwater Assessment Plan is approved and should be implemented in accordance with the schedule proposed in Section 5.1.

The Department understands that additional assessment and/or remedial activities will be proposed in the Groundwater Assessment Report to be submitted pursuant to this plan. The Department is in receipt of an email from your consultant, IPGX, containing a draft plan for the assessment of the potential for vapor intrusion into the occupied structure at 4210 Azalea Drive, and understands that this work will be incorporated into the additional assessment.

Please contact me if you would like to set up a meeting with the Department or to discuss this project.

Kindest Regards,
