Subject: May 2023 CA Progress Report

Ms. Kuhn:

In accordance with Item 19 of Consent Agreement (CA) 19-02-HW, this progress report is being submitted to you, including the following requested information:

- (a) a brief description of the actions which Westinghouse has taken toward achieving compliance with the Consent Agreement during the previous month;
- (b) results of sampling and tests, in tabular summary format received by Westinghouse during the reporting period;
- (c) a brief description of all actions which are scheduled for the next month to achieve compliance with the Consent Agreement, and other information relating to the progress of the work as deemed necessary or requested by the Department; and
- (d) information regarding the percentage of work completed and any delays encountered or anticipated that may affect the approved schedule for implementation of the terms of the Consent Agreement, and a description of efforts made to mitigate delays or avoid anticipated delays.

In response to the above requirements, the following is being reported to the Department since the last progress report submitted on May 5, 2023. The following progress report is for work occurring from May 1-31, 2023:

(a) Actions during the previous month:

In accordance with the **Feasibility Study (FS) Work Plan**, **Item 7** of the CA due on or before July 15, 2023, Westinghouse continued preliminary work as follows:

- AECOM completed the calibration of the groundwater flow model. A meeting is scheduled for June 1st to present the final groundwater flow model to the Department.
- AECOM continued drafting the FS Work Plan.
- (b) Results of sampling and tests:
 - None

- (c) Brief description of all actions which are scheduled for the next month:
 - Conduct an internal review of the FS Work Plan first draft.
 - Schedule and conduct a meeting to discuss the Feasibility Study Work Plan with the Department prior to the July 15th due date.
 - Submit the tabulated results and associated figures of the semiannual groundwater sampling campaign conducted in April 2023 (118 wells).
- (d) Percentage of work completed, and any delays encountered or anticipated:
 - 100% of the **Remedial Investigation** is complete.
 - 95% of the **Groundwater Flow Model** is completed.
 - 60% of the **Feasibility Study Work Plan** is completed.
 - Currently there are no anticipated delays.

Respectfully,

Diana P. Joyner

Principal Environmental Engineer
