

This program will instruct students in backflow mechanics and how cross-connections can be addressed and/or eliminated. State regulations will be presented and explained. DHEC will teach testing procedures for the PVB, DCVA, and RP assemblies. Students will test, troubleshoot, and repair these Assemblies as part of the workshop.

15 hours of CEU credit will be awarded for this program.

Completion of this training is a prerequisite for certification as a Backflow Prevention Assembly Tester in South Carolina.

In order to receive certification, DHEC will require that students attend all **Four** days of the workshop, pass a written exam, pass a hands-on exit exam, and own or have clear access to the appropriate testing equipment. You are not required to purchase testing equipment prior to the workshop.

Enrollment is limited to **20** Students.

To register, complete, detach, and mail the registration form (along with your check or money order payable to SCDHEC) to the address shown below:

**SCDHEC–BOW, Backflow Prevention
2600 Bull Street
Columbia, SC 29201**

*DHEC will not bill you or your company.
Do not send a purchase order.*

If training is canceled, your registration fee will be refunded. If you are unable to attend, you may send a substitute to avoid losing your registration fee. Please note there are no refunds for no-shows, and applying the fee to a future class is not possible.
