

Facilitation Worksheet

Facilitator and/or Member to complete.

Facilitator: _____

Subcommittee: _____

1. What is your vision for the future of health and environmental services in South Carolina? – 10 Minutes
When discussing this question, think about where we are, where we need to be (minimal requirements), and where we want to be (driving towards excellence).

2. What are some of the current strengths in how health and environmental services are currently structured in South Carolina? – 10 Minutes
When discussing as a group, analyze the current services South Carolina provides, our organizational structure, etc. What makes the current structure most helpful to providing core health and environmental services to the public. Do our strengths need to look the same or different in the future?

3. What are the core challenges as well as opportunities for improvement when it comes to health and environmental services?

– 10 Minutes

Think about core internal and external factors that could hinder and/or stop our ability to reach our shared vision for the future. How do we address identified challenges? Where and/or what can we improve? How do we build on and/or grow our strengths?

4. How can this task force help positively impact the health of South Carolinians and the environment in which we live, work and play? – 15 Minutes

Think about the future of health and environmental services and how we reach our shared vision. How do we need to look / act to meet our customers where they are? What actions do we need to take to get there? How can this task force help to shape that future?
