Summary |

The Department amends R.61-75 to update provisions in accordance with current practices and standards. Amendments incorporate and revise provisions relating to statutory mandates, update definitions to conform to terminology widely used and understood within the provider community, and revise requirements for incident reporting, staffing and training, medication management, patient care and services, infection control, meal service, emergency procedures, design and construction, fire and life safety, and licensure. The amendments also update the structure of the regulation throughout for consistency with other DHEC Healthcare Quality regulations.

The Department further revises R.61-75 for clarity and readability, grammar, references, codification, and overall improvement to the text of the regulation. R.61-75 was last amended in 2015.

The Administrative Procedures Act, S.C. Code Section 1-23-120(A), requires General Assembly review of these proposed amendments.
