**DEMOGRAPHICS (cont'd.):**

**SUMMARY:**

- ✓ The majority of survey respondents state that they would elect to receive COVID-19 vaccination once eligible (~80%) and most believe receiving the vaccine is an important strategy for curbing the pandemic.
- ▲ Based on the survey results, there is an opportunity to strengthen the public's perception regarding the safety of the COVID-19 vaccine; only ~70% of respondents are confident that the vaccine is safe.
- ▲ Citizens age 18-30, racial minorities and men were underrepresented in the survey when compared to the state's overall demographics.
