UPCOMING EVENTS

FINAL CTR EXAM WINDOW
FOR YEAR!

10/14/22 – 11/05/22

**Registration Deadline
September 30, 2022**

SEER Educate:

****FREE WORKSHOP****

9/20/22 – 09/22/22

SEER Advanced Topics for
Registry Professionals Workshop
Registration is still open.

NAACCR Webinars:

09/01/22: Coding Pitfalls 2022

09/12/22: NAACCR Talk:
Update on National Firefighter

NPCR has identified two ongoing coding issues that need to be addressed. The first being Summary Stage 2018 Liver which has “Multiple (satellite) nodules/tumors (one lobe)” as well as “Single lesion (one lobe) w/ vascular invasion” listed under Regional by Direct Extension Only (2).

This is **INCORRECT**. They should be under Localized only (Localized, NOS) (1). Please make note of this as a correction will not occur until the upcoming revised manual but it still applies to all cases diagnosed after 01/01/18.

The second issue is radiation therapy coding discrepancies. RX Summ-Radiation is still being coded for 2018+ cases but it is not always agreeing with information coded in Phase I treatment. This is creating inconsistency in the data and a lack of clarity over which is code is accurate. Please double check these codes when abstracting to ensure they are not contradicting each other.

CONGRATULATIONS TO THE
NEWEST CTRS!

Brandi Atkinson (Spartanburg), Bria Burgess
(SCCCR) and Brenda Gunter (Roper).

SCCCR MONTHLY BLAST

SCCRA STATE MEETING

Oct 27, 2022 – Oct 28, 2022

Time: 9:00am – 04:30 pm Each Day

Location: Riverbanks Zoo

500 Wildlife Pkwy, Columba, SC 29210

Hosted By: Lexington Medical Center

Continental Breakfast, Lunch and Snacks will be provided

Registration form can be found on the last page of monthly blast for your convenience. If you have any questions, please contact Connie Boone at BooneCR@dhec.sc.gov or Kathy Lindley at Kathy.Lindley@prismahealth.org.

Common Error: LVI (Adrenal & Thyroid)

Lymphovascular Invasion can only be coded to 0, 2, 3, 4, or 9 for the following Schema IDs:

Thyroid 00730

Thyroid Medullary 00740

Adrenal Gland 00760

Cases diagnosed after 01/01/21 for these schemas can NOT have LVI coded as 1. Cases diagnosed between 2018 – 2020 are still allowed to have LVI coded as 1; however, if more information is provided, please use the most descriptive code.

Updates from SCCCR

- ✓ We would like to inform those facilities that have a cancer registry software vendor that they can subscribe to the NAACCR Edits Clearinghouse to receive notifications when SCCCR posts a new edits metafile. Please reach out to your vendors and suggest if they have not done so already to do the following: **Your vendor will need to include SC state in the subscription in order to receive notifications. It can be done via the NAACCR Clearinghouse page, it has the 'Subscribe to Registries' button.** If you have any questions, please contact Michael Castera, CTR at casterma@dhec.sc.gov.
- ✓ SCCCR's Data Completeness for 2020 is @ 88% as of August 18, 2022. Hospital Registries Data Completeness for 2020 is @ 89% which is why we requested that all your Completed Analytic Abstracts for 2020 be resubmitted. Kammy is currently running data linkages of your cases submitted against our main database. Once completed she will report her findings of all discrepancies. If you have any questions, please contact Kammy Rebl at Reblkj@dhec.sc.gov.

Your Data at Work	
July 1, 2022 - August 26, 2022	
Cancer Cluster Requests	6
Aggregate Statistics Requests	4
Research Data Requests	3

Who to Contact:

-**Stephanie Chiodini** (Interim Director/Data Use/Requests)- Clugsts@dhec.sc.gov
